

	<p align="center">ENVIRONMENTAL PERFORMANCE OF THE ORGANIZATION</p>	<p align="right">Date: 01/07/2021</p>
---	--	--

Centunion is a company committed to the Environment, which is why it maintains an integrated Quality and Environment system according to ISO 9001 and ISO 14001 standards. As marked by the standard, it has an Integrated Quality and Environment Policy, and annually they review the entire system.

Below is a summary of environmental performance for the period 2020-2021

Kwh Electricity

In the third quarter of 2020 there has been a decrease of 8%, possibly due to the holiday period. In the 4th quarter of 2020 there was an increase of 2%. In the first quarter of 2021, consumption increased by 3%. In the second quarter of 2021 there was a very significant increase of 119% compared to the same quarter of the previous year. It coincides with the total confinement of 2020, and the return to face-to-face work in the office of 2021.

Number of tonercartridges.

Toner consumption is linked to ongoing projects. If the organization is in project development, consumption may increase. In the second half of 2020 it was reduced by 13% and in the first half of 2021 consumption increased by 219%. The development of new projects, together with the return to face-to-face work in the office 100% have influenced this increase.

Water consumption

During the third quarter of 2020, consumption fell by 13% and in the fourth quarter it fell by 15%. In 2021, the first quarter consumption fell by 36% and during the second quarter it increased significantly by 101% coinciding with the return to face-to-face work in the office at 100%.

Kg of Paper

During the second half of 2020, there was a decrease in paper consumption of 56% compared to the same period of the previous year 2019. In the first half of 2021, paper consumption increased by 54%, coinciding with the development of new projects, and the return to face-to-face work in the office at 100%.
